DOMAINS 1&4—PLANNING AND PREPARATION

15% of total teacher report points

SCORING

Domains 1 and 4 are scored by a certified observer at least once each academic year. The teacher is responsible for uploading the required artifacts and evidence into Frontline Oasys for the certified observer to review and score. The certified observer is then responsible for reviewing and submitting the data through Frontline Oasys.

BEST PRACTICE

Best practice is to upload and score Domain 1 in conjunction with a formal classroom observation, but this is not a requirement.

DATA FLOW

Data flows nightly to the NM PED.
